

## Don't Move

The Church

Holiday for two  
Beautiful furniture  
Powdered gun drifting up inside  
Cretaceous man become just what I am  
Now don't move, don't move

Ooooh don't move

Composed of solid song, we get along  
Distance crunching honchos with echo units  
Sue me if you want, there's nothing left  
Now don't move, don't move

Oooh don't move.

Now mix it up with water like a sacrifice to slaughter  
Take off your helmet lay down your cable  
Pick it up (?) earthshaker, Poseidon heart-breaker  
Don't move don't move

Ooooh don't move

No neo-Henrik Ibsen with a prehistoric Gibson  
Could begin to do what I have almost done  
Now look into the sunset before the final credit  
Don't move don't move

The miracles (Americans ?) come falling, the miracles come crawling  
I'm scared of something nasty (Do you know what kind of snake ?  
)  
Forget the memories dear, that I was ever here  
Don't move don't move
