Lizard

The Church

Lizard, lizard Still want near darkness, black summer Evil drifting beyond Somewhere a plane leaves You're skin's strange You always make it so hard Lizard You always make it so hard Lizard Morning comes prismed Your eyes multi-faceted Dreaming of islands out there You always make it so hard Lizard It's always worked so far Lizard And you burn so cold Lizard You always make it so hard Lizard Black storms White stars That air rushes past your eyes Crystalline baby, maybe You always make it so hard You always make it so hard Lizard It's always worked so far Lizard And it burnt so cold Lizard You always make it so hard Lizard You always make it so hard Lizard You always make it so hard
