

Space Saviour

The Church

My little lonely
She's my one and only
All the love just stone me
And I can't let it go

Like a siphon or straw
Something to adore
On the fatal flaw
And I can't let it go

Oh my little saviour
On her good behaviour
All the self she gave you
Now you can't let it go

Like a needle or tack
When she's giving you back
And the stages go black
And you can't let it go

And I gotta get up
And I gotta get on
And I gotta get off
And I gotta get out

And I gotta get up
And I gotta get on
And I gotta get off
And I can't let it go

My little heart
With a cosmic handshake
Hammer on till daybreak
I can't let it go

Like a Zorro or zealot
Bite it just too feel it
She gonna reveal it
Then you can't let it go

Oh my little wonder
Makes you stop to ponder
Makes me kind of fonder
I can't let it go

Like I live and I learn
Like a Chinese burn
Just wait till you turn
I can't let it go

I gotta get up
I gotta get on
I gotta get off
I gotta get out

I gotta get up
I gotta get on

I gotta get off
And I can't let it go

My little panda
I don't understand her
With her natural grandeur
I can't let it go

Like a trick or tornado
No she ain't afraid
Nothing gets delayed
And she won't let it go

My little golden
Her love and her holdin'
Only serves to embolden
And I can't let it go

Like a fraction or flake
I do it all for her sake
I do it all for her sake
Then I can't let it go, no, no

And I gotta get up
And I gotta get on
And I gotta get off

And I gotta get up
And I gotta get on
And I gotta get off
But I can't let it go

Can't let it go
It doesn't know
Cause I can't let it
I can't let it go

Baby don't say no
Can't let it go
I can't let it go

Can't let it go
