

We slowed it down, now we're savin' the city  
We'll be up in all our palm trees, drinking  
So we'll speak our words and sit on top of the profits  
Go take some notes kid and come back in the evening

Yeah, where we wanna be now  
It's where we thought we'd be safe and sound, back on the ground  
You can't fight the motion, it's kinetic  
You can't stop the moment, it's electric, I can't forget it

We're holding down what was left of the city  
I could use one more hour, driving this freeway  
So we'll speak our words and sit on top of the profits  
Go take some notes kid, and come back when it's settled in

Yeah, where we wanna be now  
It's where we thought we'd be safe and sound, back on the ground  
You can't fight the motion, it's kinetic  
You can't stop the moment, it's electric, I can't forget it

Yeah, where we wanna be now  
Yeah, it's where we thought we'd be safe and sound  
Yeah, where we wanna be now  
Where we thought we'd be safe and sound, on the ground  
You can't fight the motion, it's kinetic  
You can't stop the moment, it's electric, I can't forget it

You can't fight the motion, it's kinetic  
(yeah, where we wanna be now)  
You can't stop the moment, it's electric, I can't forget it  
(where we thought we'd be safe and sound, back on the ground)  
It's electric, I can't forget it  
It's electric, electric, I can't forget it
