

# Devil In My Soul

The Cinematics

If you don't care, then it doesn't matter  
'Cos I don't care about me  
I took some time to write this letter  
That I never even sent

I'm in the same place  
I'm on the same drug  
I'm losing myself and I'm losing you, too  
Oh, please tell me  
What do I do?

It's such an easy place to run to  
It's such an easy place to turn to  
You know I never meant to hurt you  
So please, let me in

I don't want to be like this  
I didn't mean to get in this spot  
I can't remember what I said  
There was a devil in my soul  
And it will never let me go

I don't know where did these days go  
Now I'm staring from the other side  
And now it's not so cool

I'll take another drink  
I'll take another light  
I'll take another friend along for the ride  
But I was never by your side

It's such an easy place to turn to  
Such an easy place to run to  
You know I never meant to hurt you  
So please, let me in

I don't want to be like this  
I didn't mean to get in this spot  
I can't remember what I said  
There was a devil in my soul  
And it will never let me go

I don't want to be like this  
I didn't mean to get in this spot  
I can't remember what I said  
There was a devil in my soul  
And it will never let me go

It's always the same  
It keeps calling my name  
Please let me go
