

Let There Be Light

The City Harmonic

From the chaos You composed
A song that all creation knows
You took a mess, and You made life
You said, "Let there be light."

Word of God, God from the start
Recreating human hearts
Make us like the moon at night
A mirror of the light

With just a word set the dark to flight
Sing to the world, "Let there be light!"

O Word of God, let there be light
Cut through the dark,
oh, Let there be light!
Come risen Son in glory bright
Come Word of God
oh, Let there be light

We're desperate for the break of dawn
To be won by the risen Son
Grace and justice, here collide
To keep us through the night

With just a word, set the dark to flight
Sing to the world, "Let there be light!"

O Word of God, let there be light
Cut through the dark,
oh, Let there be light!
Come risen Son in glory bright
Come Word of God
oh, Let there be light

Sing now, sing into the dark
Sing to lonely hearts,
oh sing, "Let there be light."
Sing out when we see the sun
For our light has come
and the dead have come alive

O Word of God, let there be light
Cut through the dark,
oh, Let there be light!
Come risen Son in glory bright
Come Word of God
oh, Let there be light

O Word of God, let there be light
Cut through the dark,
oh, Let there be light!
Come risen Son in glory bright
Come Word of God
oh, Let there be light

O Word of God, let there be light

Cut through the dark,
oh, Let there be light!
Come risen Son in glory bright
Come Word of God
oh, Let there be light
