

# Out Of Sight, Out Of Mind

The Clarks

You grew up in a sheltered world where money meant a lot  
Your mother was a faker your parents always fought  
The values they meant more before when i look at your place  
Your hair it cost a hundred dollars and there's shit all over y  
our face

Out of sight out of mind  
Too much money too much time  
Out of sight out of mind  
Too much money too much time

The stories that we used to tell of how we'd beg and borrow  
I hear your son is screaming pop would you buy me a car tomorro  
w  
They sued the principal today for putting sister in her place  
But all she sees is a reflection and the razors in her face

Out of sight out of mind  
Too much money too much time  
Out of sight out of mind  
Too much money too much there's too much time

Your father thought he sheltered you and kept you from temptati  
on  
Now you watch a lot of tv and you tell him that you hate him  
Out of sight out of mind  
Too much money too much time  
Out of sight out of mind  
Too much money too much time  
Out of sight out of mind  
Too much money too much time  
Out of sight out of mind  
Too much money too much time  
Out of sight out of mind
