Summer Setting Sun

The Clarks

it occurred one day to me
I'm next, gonna see what he can see
I could just crowd in the rain
Catch a southbound train

These troubles got me on the run
The day is done, it's alright
Take it as it comes
In the summer setting sun

Hard life it can be one day for you
You're next gotta do what you gotta do
All souls disappear like yours and mine
Straight outta time

These troubles got me on the run
The day is done, it's alright
Take it as it comes
In the summer setting sun

Slow burn between the two of us
Jump on a last chance bus
We could just talk it out tonight
What's wrong, what's right

These troubles got me on the run
The day is done, the girls are alright
These troubles got me on the run
The day is done, the kids are alright
These troubles got me on the run
The day is done, the girls are alright
