

# Take Care of You

The Clarks

Let me start by saying that I love you  
You know that I'd do anything for you  
Ever since day one you know you were a wild one  
And keeping you in line was hard to do

I did wrong I know I've been hard on you  
And in return you put me to the test  
And our blood is so much thicker than that water  
All I ever want for you is the best

And it's weighing on my mind  
I'm praying all the time  
Lord just help me see this through  
There are people in this world  
Some are broken some are black and blue  
And I know that you'll take care of me  
And I'll take care of you

You're gonna want to go to California  
To search for fame or stake your claim to gold  
And that thing you'll talk about what you'll call freedom  
Back in my day well we called that rock-n-roll

And it's weighing on my mind  
I'm praying all the time  
Lord just help her see this through  
There are people in this world  
Some are broken some are black and blue  
And I know that you'll take care of me  
And I'll take care of you

And I watch the sun rise in the sky  
Another day and another year  
And love and dreams and hopes and fears  
And I don't ask why it's the ties that bind

Life is good but things are never easy  
We laugh and cry and live and die alone  
You hold on to the one that really matters  
You let go of the light when that bird has flown

And it's weighing on my mind  
I'm praying all the time  
Lord just help her see this through  
There are people in this world  
Some are broken some are black and blue, it's true  
And I know that you'll be strong  
You'll have faith and you'll know love  
You'll have one of your own brand new  
And I know that you'll take care of her  
And I'll take care of you
