

# Take Me

The Clarks

For all the thank yous that I should have spoken  
But I never did  
For all the comfort that I should have given  
But I never did

Take me, shape me, mold me from this broken frame  
Take me, shape me, I don't wanna lose this again

For all the mending and the doors that you opened  
I know you had your fill and I thank you  
You saw me falling and I should have noticed  
Now I always will and I thank you

Take me, shape me, hold me to this burning flame  
Take me, shape me, I don't wanna lose this again

Let your light shine on  
Show me what side I'm on  
Let your light shine on  
Show me what side I'm on

So shine on  
Don't wanna lose this again  
So shine on  
Lose this again
