

## The Longest One Night Stand

The Clarks

Long week at work, you're gonna shake it off  
With the patrons of the stone built in  
Looking for a quick fix Friday night  
Get up and do it all again

There's a girl getting dressed up, she'll be there  
Sipping on a shot of tears  
Looking for a way to break it off  
From a boy who stole lots of years

It was the longest one night stand  
Not the way had it planned  
Two days ago and she hasn't gone home  
It was the longest one night stand

She throws back hard and comes on soft  
You know what's on her mind  
And her looking better thinking she was everything  
It was almost by design

It was the longest one night stand  
Not the way I had it planned  
Two days ago and she hasn't gone home  
It was the longest one night stand

When you come so far you get so lost  
Lucky hearts don't hide  
A girl that makes you stand so still  
She must be quite the find

It was the longest one night stand  
Not the way I had it planned  
Two years ago and she isn't going home  
It was the longest one night stand

It was the longest one night stand  
Not the way I had it planned  
Two years ago and she isn't going home  
It was the longest one night stand  
The longest one night stand  
It was the longest one night...
