

## What Do You Do?

The Clarks

Closed the door and turned the key and drove away  
After your hug and kiss till I come another day  
And I'll keep you on my mind  
Sometimes hours at a time  
But this road, it keeps me running

What do you do when I'm not around  
What do you say when I'm miles away  
What do you wear, is it old or is it new  
How do you sleep when there's no one next to you

Got a lot of silly stories in my head  
Some are true and others are misread  
And this time I've spent alone  
Has a meaning on its own  
But it's just my imagination

What do you do when I'm not around  
What do you say when I'm miles away  
What do you wear, is it old or is it new  
How do you sleep when there's no one next to you

All this hope and time  
Will they push and pull in both directions  
Hope our love won't mind  
This temporary misconnection

Got a suitcase full of clothes covered in sweat  
And this [?] to pay the rent  
It's a complicated thing  
'Tween mystery and a dream  
But it's mostly out of my hands

What do you do when I'm not around  
What do you say when I'm miles away  
What do you wear, is it old or is it new  
What do you do when I'm not around

What do you say when I'm miles away  
What do you wear, is it old or is it new  
How do you sleep when there's no one next to you  
How do you sleep when there's no one next to you  
How do you sleep when there's no one next to you
