

## 4 Letter Words

The Clik

Heart beat- I think I could come on your sheets  
Am I deluded here?  
But she says we can do it with  
Four letter words coming up in my head

Don't speak, it's better if we just push these feelings aside  
On the fourth beat  
I am so new to these  
Four letter words coming up in my head  
Four letter words coming up in my head

So go, I can't bare to see you  
So stay then  
Don't bother with these false attempts  
I think I'm overwhelmed

Take these hard earned delusions  
And keep them away from me  
I am not here to tempt your vision  
But four letter words are coming up in my head  
Four letter words are coming up in my head

Don't speak  
It's better if we just hold these words on the tips of our tongue  
See, I think you're overwhelmed with  
Four letter words coming up in your head

So go, I can't bare to see you  
So stay then  
Don't bother with these false attempts  
I think you're overwhelmed

Four letter words coming up in my head (4 x's)

So go, I can't bare to see you  
So stay then  
It's better if we just pretend  
I think I'm overwhelmed

Four letter words, four letter words, four letter words, four letters (repeat)

Four letter words coming up in my head (4 x's)
