

Love Bug

The Clovers

Well the love bug bit me and it really made me know it too
Well the love bug bit me and it really made me know it too
Beware beware, 'cause the love bug might bug you

When she thrills me like she should
Broke my heart like I knew she would

She's a sweet little kitten and she fits my arm so fine
She's a sweet little kitten and she fits my arm so fine
She's a good little thing and she makes me lose my mind

Love, oh love bug, what did you bring me?
Happiness mixed with misery

Well her kisses tasted just like cherry jam
Well her kisses tasted just like cherry jam
Yes she made my poor heart go bippity bam

When she loves me, she's so fine
But she never, never will be mine

She's got me crying and sighing and I'm pleading on bended knee
s
She's got me crying and sighing and I'm pleading on bended knee
s
The love bug's got me, somebody help me please
