

Your Tender Lips

The Clovers

Ooh, ooh
Your tender lips drive me insane
Intoxicate me set me aflame
Your tender lips tell me you love me
All of my waging was not in vain

When we kiss
My heart begins to pound
And bump and my head
Begins to spin around
And round suddenly I know
That all I need is one more kiss
A kiss
A kiss
A kiss
A kiss
A kiss
From your tender lips
Can't do without 'em
Only one kiss
Sweet kiss from your tender lips

When we kiss
My heart begins to pound
And bump and my head
Begins to spin around
And round suddenly I know
That all I need is one more kiss
A kiss
A kiss
A kiss
A kiss
A kiss
From your tender lips
Can't do without 'em
Only one kiss
Sweet kiss from your tender lips
Your tender lips
Your tender lips
