It's Heavy

The Cold Stares

Pollution in the air, corporations they don't care, it's heavy
And we watch our children starve, while we driving brand new cars, it's heavy
Strung out on the pills, we can't pay the bills, it's heavy
Oh and nations are at war, and no one knows what for, it's heavy, it's heavy

Tell me how can we be so blind?
You know the clock is running out of time
Oh now we're running out of time

We got a shooter in the school, you know someone lost their cool, it's heavy
We got mothers on the streets, trying make ends meet, that's heavy
Politicians in their castle, you know they just can't be hassled, it's heavy
Oh and we've given up on God, and we're caving to the mobs, that's heavy

Tell me how can we be so blind?
You know the clock is running out of time
Oh now we're running out of time

Tell me how can we be so blind?
You know the clock is running out of time
Tell me how can we be so blind? Yea
You know the clock is running out of time
Oh now we're running out of time
Yea, we're running out of time
