I Didn't See

The Color Fred

You always said be careful what you might wish for
You always said karma could cut both ways
I never see you anymore
I should have thought before I drove you away
Before I drove you away

I didn't see how much you did
I didn't see until you were gone, 'til you were gone

You always said good things don't last forever
Well it's a good thing you never thought much of me
And do you think of me still, please still I never see you anym
ore
I should have though before I through it all away
(Where are you now, where are you now)
I through it all away

I didn't see how much you did
I didn't see until you were gone, 'til you were gone
I didn't see how much you did
I didn't see until you were gone, 'til you were gone

I didn't see how much you did
I didn't see until you were gone, 'til you were gone
I didn't see how much you did
I didn't see until you were gone, 'til you were gone
'Til you were gone, 'til you were gone, 'til you were gone
'Til you were gone, 'til you were gone, 'til you were gone
