

Better Than That

The Common Linnets

If you can't see the truth or you just won't
Then there is no conversation to be had
If you think that what you're saying
Isn't giving you away then
You should know me better than that

Haven't I always laid everything out on the table?
And isn't it true that I never held nothing back?
If you're sitting there staring at your coffee cup
Thinking if you push a little harder I'll give you up
Then you should know me better than that

If you're just here cause you can't go
And you won't say what we both know
I guess we'll have the morning sort it out
If you just want me to go on
Keeping my side of the bed warm
You shouldn't even have to wonder by now

Haven't I always laid everything out on the table?
And isn't it true that I never held nothing back?
If you're sitting there staring at your coffee cup
Thinking if you push a little harder I'll give you up
Then you should know me better than that

If you're sitting there staring at your coffee cup
Thinking if you push a little harder I'll give you up
Then you should know me better than that
