

# Hearts On Fire

The Common Linnets

So there you are, alone and proud  
another wasted evening down  
tellin' yourself it's what you need  
'til you're back on your feet

I know those winds that changed your course  
and never blown so hard before  
but that was then and this is now  
Babe come on out

Did you feel your heart's on fire?  
Did you see the sparks are flying?  
Burning the night  
Yeah we are the wild and free  
Did you feel your heart's on fire?  
Hearts on fire

No clock is counting down the time  
no walls between your heart and mine  
It's all been set in motion  
emotional explosion  
These city streets are yours to roam  
This glass and steel and stone's your own  
It's all here waiting for ya  
I'm right here waiting

Did you feel your heart's on fire  
Did you see the sparks are flying  
Burning the night  
Yeah we are the wild and free  
Did you feel your heart's on fire?

Did you feel your heart's on fire?  
Did you see the sparks are flying?  
Burning the night  
Yeah we are the wild and free  
Did you see the sparks are flying?  
Hearts on fire  
Hearts on fire

Been waiting  
(been waiting)  
I've been waiting

Burning the night  
Yeah we are the wild and free  
Did you feel your heart's on fire?

Did you feel your heart's on fire?  
Did you see the sparks are flying?  
Burning the night  
Yeah we are the wild and free  
Did you feel your heart's on fire ?  
Hearts on fire  
Hearts on fire
