Indigo Moon

The Common Linnets

Under the glow of an indigo moon
Far from the rush and the bright city lights
Slow dance me darling I'm falling for you
Under the glow of an indigo moon

The wind and the pines are singing a tune
A late summer song takes us away
Stars waking up, sage is in bloom
Under the glow of an indigo moon

I've never seen something so true
As your face in the light of an indigo moon

Long days are done and summer is trough
Seasons may change but our love never will
Nowhere to go and nothing to do

I've never seen something so true
As your face in the light of an indigo moon
Under the glow of an indigo moon
