

Asthma Attack

The Confession

I came back from the dead
I have so many scars embedded in my skin
Remind me of days gone by
Remind me of the years that have passed
I stood my ground to come out better off
I take it in every breath it could be the fucking last

I came from a town that will always be home
So many memories that will die with me
I came from a town that will always be home
So many memories will fucking die with me

Try and cut me down to my knees
I will stand back up to fight
Nine lives I just won't die
NO MERCY
NO REMORSE

I seen death before I know I'll see it again
I have so many scars in bedded in my skin
Remind me of days gone by
Remind me of the years that have passed
I've seen death before it still hurts to breath
I've seen death before me

BARELY BREATHING
It hurts to breath left for dead

LEFT ME FOR DEAD
BARELY BREATHING
