

Roll Call

The Cool Kids

This for all y'all
Roll call
Arrive and state your name
It's like bust that (bust that), what was that (what was that)?
It's Mike Rocks, take a look at the top

I had the Iceberg sweaters and the jeans
Back in '01
Daffy Duck running on the stomach of that sweater
Cargo get-up, inside all leather
Point a loud bitch if you know one
Talking about shopping sprees
Damn, now we on one
I'm just kidding, ain't gonna be
No bag-getting, casino
Throwaways, throw their chips in
Throw it in the bag, like
The bag that the chips in
Bag after bag of that cabbage we twisting
Thinking about our existence
And sticking to the mission
You could get a lot off top
Or you could get that pot
That you been pinching
If you was listening
We've been to Michigan Ave
With bag handlers on hand
And sandals on sand
Put 20 on the game, man
That's plenty in the tank
But never scratch
Let me battle back

This for all y'all
Roll call
Arrive and state your name
It's like bust that, whose that?

It's Charles Chop and it
Don't stop. The governor, the mayor
The president, the Westerner
I'm dressing in some Guess jeans
Pocket buzzing text messages
Left hand roll it, pass me the lighter
Right hand jab job to your face
Like we're fighting. Uppercutting
Feeling tougher than a leather seat
To the ground like I threw you down
From a couple stories
Don't drop it, don't look it mommy
I got the key in the ignition
We at the corner store kicking it, this is it
This that shit, the ? rhymes that'll
Stick to your ribs, kid
Bite this homie, that's bad for
Your wellness. Health insurance coverage
Couldn't cover regardless

You looking like us and we ain't even
Get started! That's why we don't believe you
Power to the people

Now what you know about a cold winter
In the middle of Chicago?
Sitting 20 inches up, precipitation
On the pavement, I've been waiting for
The warm weather, this sweater's getting
Heavy on me, getting sweaty while I'm getting
Ever-ready, like a wrestler, mentally in shape
I train about 5 times a day for like
9 hours straight. Tied tight on my waist
Run a mile under 3 it's a breeze
I can do it all angles: 90 degrees
Gotta keep your knees up, Young Buck
Never ease up, kids take a seat
It's time to meet teach. Mike rock
Economics while I be on physics
JP engineers while Chuck instructs English
We up in this, don't think for one minute
I'll play dumb, you dumbs, you come
Sit front and center. Pay attention
To the lessons of professors
Speaking to our generation: now or never

This for all y'all

Chip 216, it only take about an hour
For a young G to get ready. How long it's gonna
Take you lightweights to get heavy?
A lot of niggas got rock, but my rock's steady
System, a couple misfits with some 'fetti
Ride round LA blowing them trees
I need a soccer mom like that MILF off Weeds
Who sell trees so I can pay rent for her
With this, she says she needs a Raging Bull
Husband must be fired and
Paypal's the new-new
No need to wire that invoice balance
Sweat is the challenge
Hop on turnpipes, smoke out in palace
? Benz, Lez, whatever I decide to
? don't own foreign cars, but I do!
? eyes with your Piru
And shut these corny rapping ?
