

Written Apology

The Cooper Temple Clause

Haven't you heard
It's getting that time
So go spread the word
And get practicing your rhymes
The foot and the bear
And signature moves
A word in your ear
And look who's doing stuff
We love the way you move

I know we've been gone
And we're never around
But we're coming home
And we've missed getting down
You'll always remain the beautiful boys
So don't ever change
And just go get the girls
And it's all a request
Just to carry it on
A force of a habit, to drag us along
We gave you excuses
We gave you a song
You carried it on
We love the way you move
