

## All Your People

The Copyrights

There's no such thing as an overreaction  
You're going crazy like everyone else  
Stand in line for you overprescription  
You wouldn't spit it out even if you could  
Talk to your friend through fluorescent lights  
She's impressed with all the progress you're not making  
You smile and look her right in the eye

Tell all your people they better get ready  
I said it once and I'm not gonna say it again  
Tell all your people they better get ready now
