The Copyrights

A group's gathering, it must be getting close
Gonna get their money's worth tonight
Are they my enemies, who wanna see me squirm
Or friends, who wanna see me off right
Can't help but smile at how they do it here
Both sides downstate they thirst for blood
You heard it once, this world is beautiful
That's what I said, but I'm really thinking

All of you are coming with me
Knots and rope alone won't get me
You or me will, learn the hard way

And it's a beautiful world, that's what I said
To remember me by
And it's a beautiful world, that's what I said
But I'm really thinking

All of you are coming with me
Knots and rope alone won't get me
You or me will, learn the hard way
All of you are coming with me
Knots and rope alone won't get me
You or me will, learn the hard way
