

Forever or Today

Do you really wanna live forever
Do you really wanna live forever
Do you really wanna live forever now?
Yo'll have time and time again to do all the things you love
Run them into the ground until it's all the things you hate
You'll have plenty of time to plan your future time and again
It's never going to end It's never going to end
Do you really wanna live forever
Do you really wanna live forever
Do you really wanna live forever now?
I don't want to live for tomorrow
I want to live for today
