Go Now

The Copyrights

Why don't you go now cause you're all alone
Why don't you go now you're not welcome
Why don't you go now everyone's happy again
Why don't you go now nobody likes you here
and when you show up we're all full of fear
Why don't you go now everyone's happy again
Everyone looks the other way until today
You're not staying tonight just to start another fight
It feels good to completely forget about you
