

Help Me Stay Awake

The Copyrights

I drink so much caffeine now
that it puts me to sleep
as quick as an overnight drive
or a presidents speech
This skin is getting tougher and this bar is getting higher
this bar keep getting drunker they forgot that we're all liars
you're gonna help me stay awake
I've taken everything that I can take
you're gonna help me stay awake
I've taking everything
everything that I can take
I see so much innovation
now it puts me to sleep
as quick as a daytime show
or a rocksingers speech
this skin is getting tougher and this standards getting raised
this band keeps getting drunker they forgot how the song are pl
ayed
you're gonna help me stay awake
I've taken everything that I can take
you're gonna help me stay awake
I've taking everything
everything that I can take
You'll show me things I've never seen before
well I've seen them
You'll take me places I've never been before
We'll I've been there
Well I don't care
