

Kill the Captains

The Copyrights

Taking water not capsized yet
the same things in all our heads
can't believe its come to this
kill one or we'll all be dead
There's a meeting on the deck
we all know blood will be shed
the same ones who gave us a home
the same ones who taught us everything we know
and it's time for the captains to be killed
you're positions to be filled
by the people you gave orders to
and it's time for the captains to be killed
you're positions to be filled
by the people who followed you
and on and on and on...
