

## Playing Dead

The Copyrights

We've watched you with beer soaked eyes  
pointing your finger of blame  
We've stood by close to the side line  
fighting this feeling of shame  
so you look where you are  
just for once in your life  
will you stop playing dead  
just for once in your life  
will you stop playing dead  
Years have gone by and you're still here  
remembering mistakes you've made  
this town is hoping you'll quit your role  
or will you still be afraid  
so you look who you are  
just for once in your life  
will you stop playing dead  
just for once in your life  
will you stop playing dead
