

Stuck in Springtime

The Copyrights

Those leaves are changing
you can see that life's rearranging will we see it end
or will we just give in
somedays it's miserable
today its beautiful and I think I know
what to expect tomorrow
We're stuck in the springtime (another day is gone)
We're stuck in the springtime will it end
We're stuck in the springtime (another song is gone)
We're stuck in the springtime will it end
another day is gone
Been here for so long
still play the same song that you've heard before
but you can't ignore
no longer here to please
from now on I'm here for me and when you go
I'll say I told you
We're stuck in the springtime (another day is gone)
We're stuck in the springtime will it end
We're stuck in the springtime (another song is gone)
We're stuck in the springtime will it end
another day is gone
Will we see it end
Will we see it end
Will we see it end or will we just give in
Another day is gone
