

## The New Frontier

## The Copyrights

We've reached the plateau  
No longer scared, we could be drowning  
But the problems with this  
Is we forget how to swim at all

We look further out west  
Every scare claimed to the Pacific  
No more romantic expansion  
No more Grapes of Wrath or Cannery Row  
Not anymore

So let's build a massive brewery  
And party like the old worry  
Then burn it to the ground and disappear  
The unsatisfied hearts will bring the new frontier

We look further out west  
Every scare claimed to the Pacific  
No more romantic expansion  
No more Grapes of Wrath or Cannery Row

We look further out west  
Every scare claimed to the Pacific  
No more mysterious trail ways  
No more East of Eden or Tortilla Flats  
Not anymore

Let's burn it to the ground and disappear  
The problem with this  
The unsatisfied hearts will bring the new frontier  
Is we forget how to swim at all
