

Thinking with the Lights On

The Copyrights

do you have anymore bright ideas?
lights out right now lights out

i think it's better if you
keep them to yourself
I think it's better for your
safety and your health

do you have anymore bright ideas?
'cause now's not the time to be
thinking with the lights on

I think it's better
to look out for ourselves
our enemies are everybody else

now's not the time to be thinking
with the lights on
