

Trapped on a Reel

The Copyrights

Chances are we all end up
Like our moms and dads
giving in giving up broken down
we'll make excuses it was our choice
we didn't sell out we bought in
but just like watching a scary movie we jump

Even though we know it's just a movie
and the pictures aren't really moving
and the actors just like you are completely safe
they're just trapped on reel doing the same thing everyday

Don't settle for living comfortably
Don't settle for living vicariously
Don't settle for living comfortably
Don't settle for living vicariously

And the actors just like you are completely safe
they're just trapped on a reel doing the same thing everyday

Don't.... settle for living comfortably
Don't settle for living vicariously
Don't settle for living comfortably
Don't settle for living vicariously
(trapped on a reel trapped on a reel doing the same thing every
day)
