The Copyrights

How can we make this right?  
When we can't even speak tonight  
How can we make this right?  
When we're f\*\*ked beyond belief tonight

You know we're not talking  
We're not working it out  
Our pride will kill us quicker than our doubt  
And we're self-medicating  
With the cheapest stuff  
Our brains say stop  
But our hearts can't get enough
