

# We're Not Gonna Make It

The Copyrights

You've got your codes/costs  
Checked them all one by one  
The steady growth  
Until you realize you're outdone

You all should know  
We are not in a race  
We have no dreams  
So time is impossible to waste

This is not a launching pad  
Is the basement of your mom and dad  
This is not a safe way out  
We're already which is far as we go

We're not gonna make it on our own  
We're not gonna make it on our own  
We're not gonna make it on our own  
Cause we are not going nowhere

This is not a launching pad  
Is the basement of your mom and dad  
This is not a safe way out  
We're already which is far as we go

We're not gonna make it on our own  
We're not gonna make it on our own  
We're not gonna make it on our own  
Cause we are not going nowhere
