Please don't let the light though my window Keep the curtain shut It brings me good luck

Please don't let the light through my window Don't wanna see the day I don't need it anyway

Please don't let the light through my window Don't wanna see the shop or the wet bus stop

Please don't let the light through my window The bells ring out for doom On this sunday afternoon

Please don't let the light through my window Please don't let the light through my window
