

At Least We'll Always Have LA

The Coronas

So let's not try too hard
That's enough of that
It's still so sure
We can set our alarms
But there's nothing much to get up for
We could take your car to the reservoir
Just to breathe in
(Again and again and again)
And then you promise you'll stop off in Silver Lake
When all this shit ends

And if we don't find something up our sleeves
The world just stays as crazy as it's been
We'll work it out, oh oh
And if it's just too late
At least we'll always have LA
And if we can't get back
At least we'll always have that

And I honestly thought I'd start focusing again
So let's just take a breath
It's not time to panic yet
There's so much here
And when we quoted songs
All of our favorite ones
They seemed so sincere
And you remember life
When you could book a flight
Just to see your friends
(Again and again and again)
And you still promise you'll stop off in Silver Lake
When all this shit ends

'Cause if we don't find something up our sleeves
The world just stays as crazy as it's been
We'll work it out, oh oh
And if it's just too late
At least we'll always have LA
And if we can't find a safe way out
Yeah, we both know that's not as crazy as it sounds
We can resign, oh oh
And the fact remains
At least we'll always have LA
And if we can't get back
At least we'll always have that
Yeah, at least we'll always have that
Oh, at least we'll always have that
