

## Get Loose

The Coronas

Get up, it always ends the same  
You're out and you wanna be entertained  
Oh, so you've nothing left to hide

But my god, you're looser than you think  
You soared up and through the kitchen sink  
Oh, you just take it in you're stride

Come on, I dare you  
To get loose, yeah  
Come on, I dare you  
To get loose, yeah  
Yeah, yeah

Back then, you were never that discrete  
You had sense where you should be  
Oh, so did you let that go?

You can't see, you barely look awake  
But you say it's me that plays it's safe  
Well, at least you let me know

And you can deny us  
Are you gonna guide us?  
We can decide we have all just had enough  
So are you bringing us down  
Are you helping us all out?  
Just make sure we move like there's no one else around us

Say  
Come on, I dare you  
To get loose, yeah  
Come on, I dare you  
To get loose, yeah

And you know  
How to silence yourself  
Let it go  
Let it go, I could do with some help  
Ooh

Come on, I dare you  
To get loose, yeah  
Come on, I know you  
Can get loose, yeah  
Yeah, yeah
