

## How This Goes

The Coronas

All dressed up, you try to cheer me up  
I pretend I'm ok but I'm really not  
And I just hope that time will help me out  
But you'd kill and you killed to defend yourself  
Cause you've been messed up with someone else  
And I just hope that time will help me out

And I could be more than just your friend  
I know, oh uh oho  
You say it's over, let's pretend

Could someone please take me home  
I don't think I should be alone  
We both know how this goes

Laugh out loud there's nothing else to do  
'Cause we screamed every term of abuse we knew  
And I suppose we didn't mean it now  
But you'd kill and you killed just to prove yourself  
And you say it's ok cause you've nothing else  
And I just hope I can make it up somehow

And I could be more than just your friend  
I know, oh uh oho  
You say it's over, let's pretend  
There's no one else around  
And it won't be for too long, I hope  
You won't let yourself move on

Could someone please take me home  
I don't think I should be alone  
We both know how this goes  
So come on please take me home  
I don't think I should be alone  
We both know how this goes  
How this goes, how...

(Oh, oh, oh)

Could someone please take me home  
I don't think I should be alone  
We both know how this goes  
So come on please take me home  
I don't think I should be alone  
We both know how this will go, oh
