

Like It Used To Be

The Coronas

Is this how it's meant to be?
I fell fast asleep
But I woke up peacefully

And it felt like New Year's Eve
Making up plans
We hope to keep

So I hold my hopes
And play them out low
As a melody
Like it used to be
So that when I close my eyes
I hear something that I like
Oh

And I can't stand your apathy
You're getting so hard to read
You don't know what you believe in

So thank God it's New Year's Eve
Do you think we can start again
With ease?

And I hold my hopes
And you can hold your own
Just play me a melody
Like it used to be
So that when I close my eyes
I hear something that I like
Ah just play me a melody
That can speak to me
So that when I close my eyes
I hear something that I like
Oh
Oh
