

## Listen Dear

The Coronas

Listen dear there's so much to say,  
A thousand words couldn't help me explain  
I know your scared it won't be the same  
I promise you I'll always remain  
The best of me is seen by your side  
Best of you I just cannot decide  
You seen the world such a traveller at heart  
A thousand miles couldn't tear us apart

So please don't go  
My heart grows strong  
After the thought your out of sight but never off my mind  
And now I know the heart is strong  
I was just watching you go [x3]

Listen dear please let me explain  
There's so much wrong but there's no one to blame  
I find it hard that we left it so well  
Its just a break not an end in timeeeee  
I'm so naive that I thought I'd be fine  
But coming home ain't ones time  
And as they said it would make you so strong  
But just a day is a day to long

So please don't go  
My heart grows strong  
After the thought your out of sight but never off my mind  
And now I know the heart is strong  
I was just watching you go [x3]

So please don't go  
My heart grows strong  
After the thought  
Your out of sight  
But never off my mind  
And now I know the heart is strong  
I was just watching you go [x3]  
[repeat]
