

My Fault

The Coronas

I want to belong to something true
and what can I say to convince you to stay?
and you know me and you know what I can do
I only believe what you want me to see

But you took enough of all the way
all the rest of the bullshit that we spoke
I'm sorry I can't let this go
To liaise was all I asked
Will you wait 'til you see me before you do something that
we could never get over?

And your round to respond
please don't be cruel
and how can you say that it can't be this way?
and you know me and you know what I can do
we teach you to sieve
at least let me believe

And I know it's my fault
we're either here
And I know it's my fault, yeah
you made that clear

But you took enough of all the way
all the rest of the bullshit that we spoke
I'm sorry that I can't let this go
To liaise was all I asked
Will you wait 'til you see me before you do something that
we could never get over?

And I know it's my fault
we're either here
And I know it's my fault, yeah
you made that clear

To liaise was all I asked
Will you wait 'til you see me before you do something that
we could never get over?
