

My God

The Coronas

I'm far from alone in my disease
My anxiety grows as the chemicals leave
My fear has outgrown, y courage with ease, with ease
And I know that in time this fear will pass
There's many a man worse off than I am
But my nightmare decides how long it will last, until then I'll
ask

My God to keep me safe
My God to make me brave
My God to wash away the remains of my disgrace
My God will keep me warm
My God will fight my war
My God will not ignore the struggles with myself anymore

And I know that it's wrong to ask of such things
I come crawling along only when I'm in need
But I swear from now on I'll be better you'll see, ah you'll see
'Cause though I'm not really sure what exactly you are
Your existence is proved in our journey so far
And the fact I confuse faith, luck and design, I'll still cry

My God to keep me safe
My God to make me brave
My God to wash away the remains of my disgrace
My God will keep me warm
My God will fight my war
My God will not ignore the struggles with myself anymore

I'm far from alone in my disease
My anxiety grows as the chemicals leave
My fear has outgrown, y courage with ease

My God to keep me safe
My God to make me brave
My God to wash away the remains of my disgrace
My God will keep me warm
My God will fight my war
My God will not ignore the struggles with myself anymore
