

Never Ending (On Your Side)

The Coronas

I could see you staring at me
With a gentle look that was never ending
Mix up all of these streets now
It was not about
I can feel it all the way here
Till I say it was a bit unclear
Mix up all of my things
But I'm still

By your side
It was never enough, you can see it
But you seem surprised
Yeah it's just us
My love, don't think that I don't feel it

I'm still on your side
Look around and there's nothing else
Think about the things that should have been said
If we'd gone, who will take me home now

It was not about
The simple way from the very place
Take a minute just to say you've done great
Back up a little, I'm freaking out

And it goes off
And I'm nervous of what to say, I've said enough
And I have failed
But at least you'd said to listen to what says
And you're not one to blame
And you try to swallow it anyway
Are we done?
'Cause I just know
Don't say "Danny I never saw it coming at all"

By your side
It was never enough, you can see it
But you seem surprised
Yeah it's just us
My love, don't think that I don't feel it

And it goes off
And I'm nervous of what to say, I've said enough
And I have failed
At least you'd said to listen to what says
No one to blame
And you try to swallow it anyway
Are we done?
'Cause I just know
Don't say "Danny I never saw it coming at all"

By your side
It was never enough, you can see it
But you seem surprised
Yeah it's just us
My love, don't think that I don't feel it

By your side
It was never enough, you can see it
But you seem surprised
Yeah it's just us
My love, don't think that I don't feel it

My love, don't think that I don't feel it
My love, don't think that I don't feel it
