

Tell Me Again

The Coronas

I think you should have this by now
you don't listen very well but
when no one's around
you're much more like yourself

So tell me again
how much you make my year
my beautiful friend
you've nothing to fear

So mumble and fumble those words
I'll understand
just fight I'll make sure you get hurt
I'll make sure that you're alright

So tell me again
how much you make my year
my beautiful friend
or tell me the sounds you hear
no, never again
my beautiful friend

So will you stay right here?
Will I fall behind?
I'm gonna move away
but you never really seem to mind
you're so easy to impress
I could save who knows you best
so wherever you go just make sure
you're somewhere you like

So mumble and fumble those words
I'll understand
just fight I'll get what I deserve
or anything that you like

So tell me again
how much you make my year
my beautiful friend
or tell me the sounds you hear
no, never again
will I be so insensitive
my beautiful friend
you've nothing to fear.
