

## Fuck A Perm

The Coup

\*whistle\*

"Dayaam, look at baby's hair over there and shit!

Damn big 1970's Jackson's afro and shit!"

[Boots]

Damn... motherfuckers, always bein like that

Apply three drips, rub softly with your fingertips

And even though you flipped, don't trip cause now you're, hip

And now you slick it, you grease it and you lick it

and you're lookin really wicked but your hair is now called good

You moisturize and texturize and relax-ize and civilize it

but yo I got a 'fro, so a bro's misunderstood

Kitchen in the back, give me dap I got a knapsack

Knick knack Patty's wack, cause in her mind it's firm

that straight is in and out is black

cause black went out with tenement shacks

but beauty is a natural fact so I say, "Fuck a perm!"
