

Love Emergency

The Cover Girls

Baby, baby
Baby, baby
Baby, baby
Baby, baby

Baby, baby, baby please help me
I know you have the magic remedy
Baby, baby, can't you see
I need some love it's an emergency

It's so much passion that I have for you
I long to hold you in my arms
You know there's nothing I would rather do
You are my shining star

I'd like to feel you lying next to me
And watch you fall asleep
Precious moments I will never lose
I hope this happens to keep

Every time I talk to you
You make me feel so good inside
I never have to look for clues
'Cause there's no secret words to hide

Baby, baby, please help me
I know you have the magic remedy
Baby, baby, can't you see
I need some love it's an emergency

I feel the pressure building up this time
And it's about to explode
We knew what we were in for
But still we went down that road

Decision, decision, decision, decision
And whatever you decide
I hope it won't be a mistake
'Cause it will be losing time

I know I'm always is in your heart
And I'm sure that's where I'll stay
But now what bothers in your heart
I hope that you don't go anywhere

Baby, baby, please help me
I know you have the magic remedy
Baby, baby, can't you see
I need some love it's an emergency

Baby, baby, baby

Baby, baby, please help me
I know you have the magic remedy
Baby, baby, can't you see
I need some love it's an emergency

Baby, baby, baby please help me
