

## Nothing Could Be Better

The Cover Girls

All my friends are talking about you  
They tell me not to fall  
But I'll quite sure if I was without you  
I wouldn't be happy at all

They say that you'll make me cry  
I should find another guy  
I know what they say ain't true  
They're just jealous cause I have you

So when they tell me that you're cheating  
I just turn away and when they ask me  
How you're treating me here's what I say

Nothing could be better than his kiss  
Nothing could be better than love like this  
Nothing could be better than us two  
Nothing could be better than me and you...

My friends say that you're gonna leave me  
Your heart is made of steel  
But it's ok if they don't believe me  
When I tell them my love is real

They say that you'll make me cry  
I should find another guy  
I know what they say ain't true  
They're just jealous cause I have you

So when they tell me that you're cheating  
I just turn away and when they ask me  
How you're treating me here's what I say

Nothing could be better than his kiss  
Nothing could be better than love like this  
Nothing could be better than us two  
Nothing could be better than me and you...
