

Could It Be, Let Me Know

The Cowsills

Yeah, I can see that there's something going on
Yeah, I can tell that the little boy is gone
Psychedelically speaking
Done something weird to my mind

Could it be the first time that I found me?
Could it be your loving arms around me?
Yes, I have been kissed before
Never quite like this before
If it's so, don't let go, let me know

Yesterday maybe I would have run to hide
But now I know that my place is by your side
I thought I would keep searching
But you were so easy to find

Could it be the first time that I found me?
Could it be your loving arms around me?
I thought I knew life before
But now I see there's so much more
If it's so, don't let go, let me know

Closer, closer, closer, closer

Could it be the first time that I found me?
Could it be your loving arms around me?
I thought I knew life before
But now I see there's so much more
If it's so, don't let go, let me know
Let me know
